

BY AUTHORITY.

DEPARTMENT OF FINANCE,
HONOLULU, Dec. 9, 1895.

Under Article 35, Section 1 of the Constitution, it is required that each member of the Cabinet shall make an annual report of the transactions within his Department, during the year ending December 31st.

The Minister of Finance takes this occasion to request all those having claims against the Government of a monetary nature, to present them to this office, through the proper Departments, not later than 12 o'clock noon on TUESDAY, January 14th, 1896, after which date the books of this Department will be closed.

All persons having moneys on account of the Government are requested to make their returns promptly, in order that there may be no delay in closing the accounts for the year ending December 31st, 1895.

S. M. DAMON,
Minister of Finance.

The Evening Bulletin,

DANIEL LOGAN, Editor.

TUESDAY - - - DEC. 10, 1895.

OBSERVATIONS.

It's for Cuba that all the filibusters headed. The fires in the Hawaiian navy may be banked.

This paper spells the capital of Cereus—"Soul"—because papers from the Orient do so, and they ought to know.

An article from a California paper gives evidence that the ladybird does its work well, even for horticulturists who have little faith in its efficacy when it is first employed.

Hawaii's labor commissioner who went to Japan showed on his return that he was imbued with the idea that Japan was going to eat all the world up, which is sharply called down by the Japan Mail in an article reprinted elsewhere.

An experiment tried by Brigadier General Warfield proved that the National Guard in San Francisco would be ready for an emergency in three hours. With our superior telephone system the citizen soldiery of Honolulu can be counted on in fifteen minutes.

Mr. Reed of Maine has been chosen as Speaker of the House, as was expected, and on taking the chair delivered one of the prettiest school examination speeches that was ever uttered. All the fault that can be found with the deliverance is that there is not a scintilla of sense in it, excepting where praise of Mr. Reed can be expected from it.

A New York dispatch, commenting on an estimate of probable work in this Congress, says: "As to the Hawaiian matter, it is doubtful whether the Senate will concur in the bill which the House may pass to annex the islands. By joint action the Monroe doctrine will be interpreted for the enlightenment of other nations, but there will be a partisan difference of views as to the working and intent of the resolutions."

At a late meeting of the Congregational Club in San Francisco, Rev. Walter Frear, father of Justice Frear of the Hawaiian Supreme Court and formerly pastor of Fort-street Church here, said he thought professional evangelists were prone to look for coldness in the churches and to try their warming process anyhow, whether they find the coldness or not. Mr. Frear will get "Detective" McEvoy down on him if he preaches such heresy. The great "Scotland Yard" man, in a letter to the Advertiser, attributes the prevailing good order and brotherly love in Honolulu to the recent campaign of Evangelist

Yatman of New York, while everybody else knows that our blissful state, barring the unearthing of a new revolution, is due to the return of Mr. McEvoy. He frightened the Government into an opium expedition the other day by searching the bore of the new cannon for opium before the ordinance was landed from the schooner Aloha.

WIRTH'S PACIFIC CIRCUS.

EDITOR BULLETIN:—Last evening I attended the performance of the company and was astonished at its efficiency. I have not seen a good circus in twenty years. Chiarini was here about a decade ago, and having seen him in the full bloom of prosperity in Australia and New Zealand, I naturally hoped for a good exhibition, but was much disappointed. He had too much stock and too little talent. In Wirth's show everything appears, and is minimized, and there is not a simple drone in the company, and it is fair and just to say that no better entertainment has been placed before our little community, without any exception.

In former years I visited the great arenas of Hengler, Price and Franconi, in Edinburgh, London and Paris, and speaking relatively, Wirth will compare favorably with these magnificent enterprises. I was pleased to notice the great improvement in the lady riders' costumes. The short ballet skirts were fruitful of accidents, so the sensible attire now adopted is good. There is nothing a father and mother can do better than to take their little ones to see this exhibition of skill, manliness and endurance. I am glad that Mr. Wirth and company have so far received some recompense for their labor.

AN OLD TIMER.

THE CONSPIRACY CASES.

More Arrests Likely to Follow This Afternoon.

In its anxiety to keep pace with the BULLETIN the Star announced the arrest of Dr. Frank Underwood for conspiracy as taking place at 2:30 p. m. yesterday, when the prison registers state that it took place at 7:20 in the evening, hours afterwards.

J. K. Sheridan, alias W. J. Sheridan, was arrested shortly after 2 o'clock, after the BULLETIN's forms were closed for the day.

Both men were arrested for violating Section 5 of Act 3 of the Provisional Government, known as the conspiracy section, and the charge against them is similar to that on which Crik, Bush and others were arrested.

Nothing can be ascertained at the Marshal's office as to the nature of the evidence against them, though it is supposed that Marshal Brown is acting on information furnished by McEvoy and others in his employ.

Both men were taken before Judge Perry at 10 o'clock this morning but the case went over until tomorrow at the request of the prosecution.

During the morning Consul-General Mills visited them in prison and had a long conversation with them, but it is not known what transpired.

In spite of the reticence of the officials the BULLETIN learned that at least five more alleged conspirators would be arrested during the afternoon and evening. Their names could not be ascertained, but they are men who have been intimate with the two men already arrested and who have been shadowed by spies for some time.

THE LEHUA OFF AGAIN.

STILL SEARCHING FOR THE MISSING SCHOONER.

Velocity Brown Reported to Have Been Seen on Kauai—Consul Wilder at Seattle.

The customs' authorities are still hunting for the elusive schooner which has nearly a ton of opium on board and is to be known as the Henrietta when she is in Hawaiian waters. The tug Elen was refitted in a hurry yesterday evening and with a fresh stock of provisions and coal aboard left ostensibly for the Kauai coast. It is said she is to go completely round the island and make a thorough search of all little bays or coves in which a schooner might be concealed. She took along a number of armed guards, field gun and plenty of ammunition. If unsuccessful on the Kauai coast she will make a search around this island before returning.

A report reached this city yesterday that "Velocity" Brown had been seen in Lihue, Kauai, which probably accounts for the sudden departure of the Lehua last night.

It is known that three suspected parties are being constantly shadowed here in hopes that something may develop out of their movements. As usual the customs people have nothing to give out to reporters, and are doubtless wondering where the BULLETIN gets so much information.

The recent visit of Consul-General Wilder to Seattle and other places on Puget Sound is supposed to be in connection with this shipment of opium from Vancouver and the information received by the authorities here doubtless came from him.

Collector McStocker still has hopes of success in ultimately locating the opium, but the general impression is that the schooner's valuable cargo has been landed and concealed long ago and that the present trip of the Lehua will add one more to the number of failures.

Earthquakes on Hawaii.

Eight shocks of earthquake were felt in Kau and five in Kona. The vibration was very severe over the entire island of Hawaii. No news has arrived from the volcano. The first news from that place will be by the W. G. Hall, due to arrive next Friday.

Timely Topics

ON:

"THE FREE AD" AND THE
SUPERIORITY OF THE
TRIBUNE WHEELS
OVER THE
STEARNS.

In our last advertisement in this column we called attention of the public to the Stearns wheels which are now being sold in this city. We stated without fear of contradiction that they were back numbers, manufactured in 1894 and shipped to the Pacific Coast as up to date wheels when they are not. We reiterate that assertion more forcibly in this ad. It has not been denied and cannot be, and we again caution buyers not to be deceived with antiquated machines which are represented as containing all the latest improvements.

An ad of the Stearns agency in an afternoon paper, praising the Tribune wheel and giving it a good send-off, refers to a letter written by H. F. Terrill, the well-known scorcher, concerning the Tribune wheel. In spite of their assertion to the contrary, we deny that the agents of the Stearns wheel have seen or read the private letter of Harry F. Terrill to the Tribune rider here (meaning Tommy King) but as there is nothing secret about it we print the whole of it relating to bicycles below. If the Stearns agents can get any satisfaction out of it they are more than welcome. Mr. Terrill says: "I am riding a Stearn, 16 lbs. Say, Tom, the Tribune wheel has an awful good reputation through the East. I did not think much of it before I came East. It is considered one of the best mechanically constructed wheels in the world."

The balance of the letter refers to private matters but the Stearns agents may peruse the whole of it at any time. The explanation of Terrill's riding a Stearns wheel lies in the fact that he is under contract with the manufacturers to do so, consequently he cannot ride a Tribune although it is evident he would if he had the choice.

In our last advertisement we asked any intending purchaser to take one of the Stearns wheels to any first-class mechanic and have him take it apart and compare it with the corresponding features of the Tribune wheel. We knew that an honest opinion would be that the Tribune is by far the better wheel and hence made the challenge. We renew that challenge and intend to keep it before the public. It has not been accepted and it will not be.

We expect those Tribune Tandems on the Australia and if they arrive they will probably be seen in the New Year's races.

Don't purchase a bicycle of any kind without first examining the Tribune.
